At Dawsongroup vans, our primary aim is to help keep your business moving 365 days a year. We pride ourselves on the unrivalled service we deliver to our customers, backed by a fantastic vehicle selection and a range of competitive finance options.

Our team of experienced LCV experts are on hand to help find you the perfect fleet solutions for your business. Whether you're looking for flexible rental to cater for planned or unplanned seasonal demands, or fixed term rental options to get the most from your fleet resource, whichever solution you choose, our **Smarter Asset Strategy** will ensure the assets in your organisation earn you money every working hour of every day.

Maintenance made easy

As a company renowned for the service levels we provide our customers, we do all we can to keep your vehicles on the road earning you money. If your vehicle ever requires unplanned maintenance, from new brake discs to a replacement tyre, we are here to help. We make repairs and maintenance as convenient as possible with our extensive network of maintenance partners, and our on-site workshops.

Extensive Support Network

With 13 conveniently-located UK sites, you're never far from our expert team. These strategically placed sites across the UK allow us to offer convenient service support to all of our customers and maximise uptime for your business.

Servicing to suit you

Our aim is to make servicing your vehicle as simple as possible, so you can keep your business moving. Our network of over 5,000 mobile and workshop-based service partners will complete the service at a time and place that is convenient to you, so there is minimum disruption and downtime for your business.

Leading the charge towards Net Zero

The journey to net zero is one that everyone must embark on sooner rather than later. Dawsongroup | vans are leading the charge and have a dedicated team of net zero advisors, Team Target Zero, to assist customers and suppliers on their own fleet's route to net zero. We will offer honest and up-front advice to recommend a sustainable and practical solution for transitioning to a net zero fleet.
